

## Use of Non-University Physicians

The Athletics Department and Health Services want you to get the very best and most complete medical supervision possible. In the event of a medical emergency during an intercollegiate athletic practice or contest, you must report to the coach, and also the certified athletic trainer immediately. If you are at an “away” contest, it is your responsibility, as well as the coach to report to the certified athletic trainer when you return to campus. Come to see me, leave a voice mail message, and or email me. I will notify you and set up an appointment at both of our earliest conveniences. Do not tell me about your injury the next day right before practice!

We want you to know you have a free choice of physicians, but realize that in making these outside arrangements, a variance in the fees will be the private responsibility of you, your family and your insurance. I will arrange physician’s appointments with your help in accordance to your insurance policy requirements.

**I have read and understand the above arrangements for the treatment of an athletic injury.**
