

GLAM Studies/Cultural Heritage

CERTIFICATE

The Certificate in Cultural Heritage from Hollins University gives students from any major the opportunity to connect their studies with a potential career in one of these cultural heritage institutional fields: galleries, libraries, archives, and museums. In addition to course work, students will complete two internships (or one internship and work-study) in an area of cultural heritage. The program culminates with the capstone experience, which would enable students to both share what they've learned through the program and to create a project that would be shared with potential employers and graduate schools. Because it is a certificate program, students will be able to complete the requirements for the program through prudent choices in their general education courses and electives, thereby not adding to their total credit hours for the bachelor of arts degree.
